

Tales of Henry James (Norton Critical Editions)

Nine of James's most important tales, including (new to the second edition) *In the Cage*, a tale that engages James's complicated attitudes toward gender, class, and the rise of information technology. The Author on His Craft again reprints James's critical essay *The Art of Fiction* and related passages from his notebooks, including a new passage on *In the Cage*. Criticism has been entirely updated and includes ten new essays by critics who during the last twenty-five years have helped to establish the lines of debate about James's tales. An updated Selected Bibliography is also included.
